LUMUT: Greed, corruption and mismanagement caused the **failure** of PSC-Naval Dockyard Sdn Bhd to build six offshore patrol vessels (OPV) for the Royal Malaysian Navy (RMN) under a RM5.4bil contract.

According to the Public Accounts Committee (PAC), the Government needed to pump in at least RM80mil to pay the local vendors, suppliers and contractors and another RM120mil to salvage the first two vessels, which were nearing completion after seven years.

The PAC will recommend to the Government that it takes over management of PSC -Naval Dockyard to avoid "good money from being used to chase after bad money". Committee chairman Datuk Shahrir Abdul Samad said PAC had found the management of PSC -Naval Dockyard to be weak, causing a hitch in building the six OPVs for the RMN.

# PMI TALENT TRIANGLE

# **POWER SKILLS:** REDEFINING PROJECT SUCCESS

PMI defines **power skills** as:

- the ability and behaviour that facilitates working with others and help project professionals to succeed

# WHY POWER SKILLS?

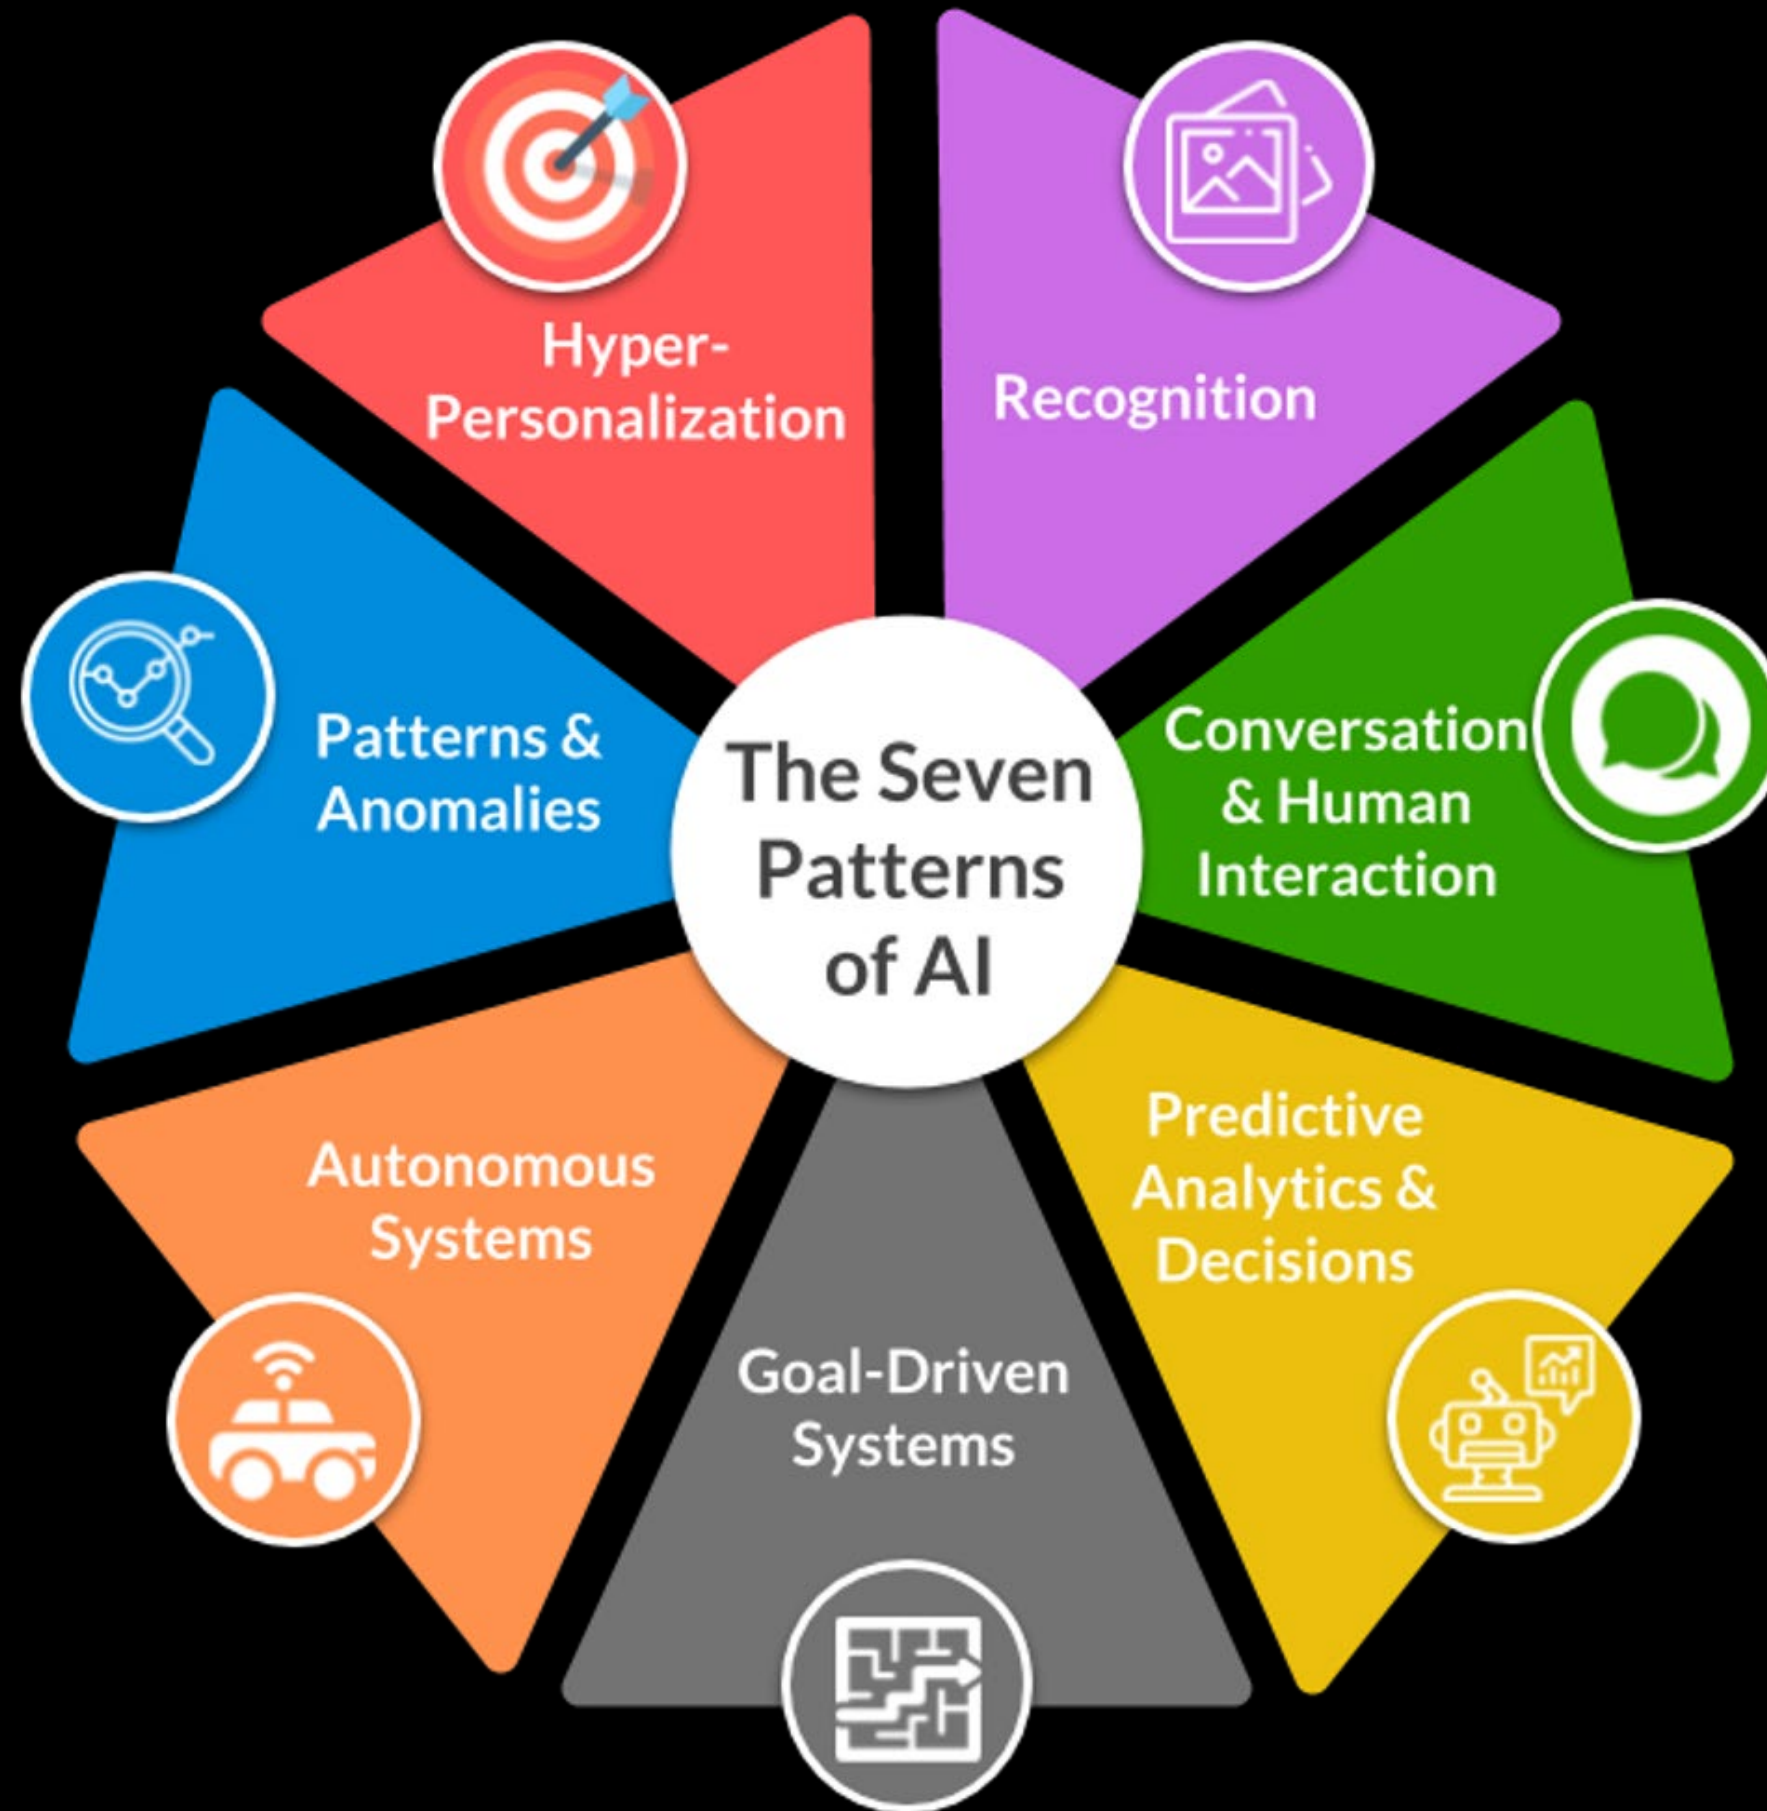

## ACTIVITY 1

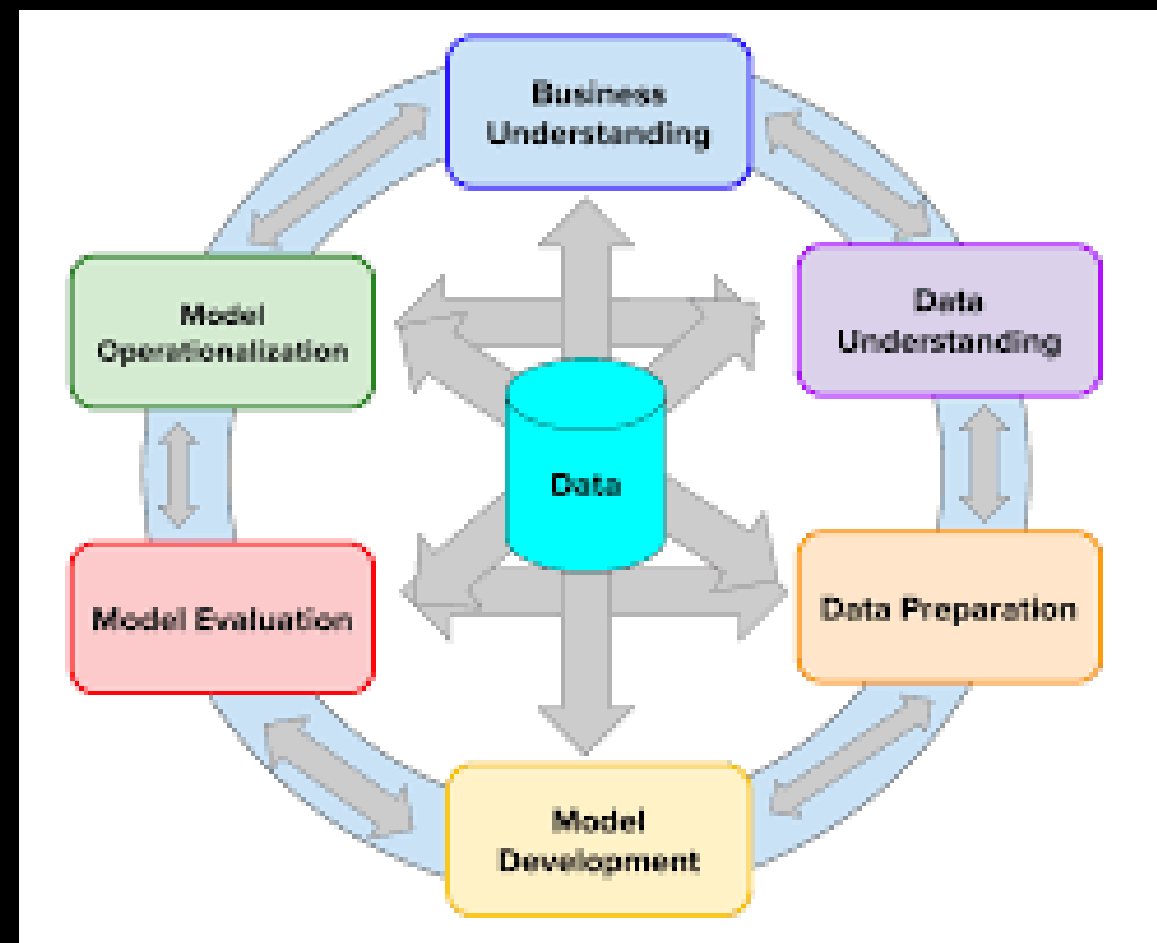

- Please refer page 5 of the Ebook and share ONE example of poor power skill that caused challenges in your project.
- Describe the consequences of that challenge.
-

# CPMAI METHODOLOGY

1. BUSINESS UNDERSTANDING
2. DATA UNDERSTANDING
3. DATA PREPARATION
4. MODEL DEVELOPMENT
5. MODEL EVALUATION
6. MODEL OPERATIONALIZATION

# WHY POWER SKILLS MATTERS FOR AI PROJECT SUCCESS?

# BUSINESS UNDERSTANDING

- **STRATEGIC THINKING AND BUSINESS ACUMEN**

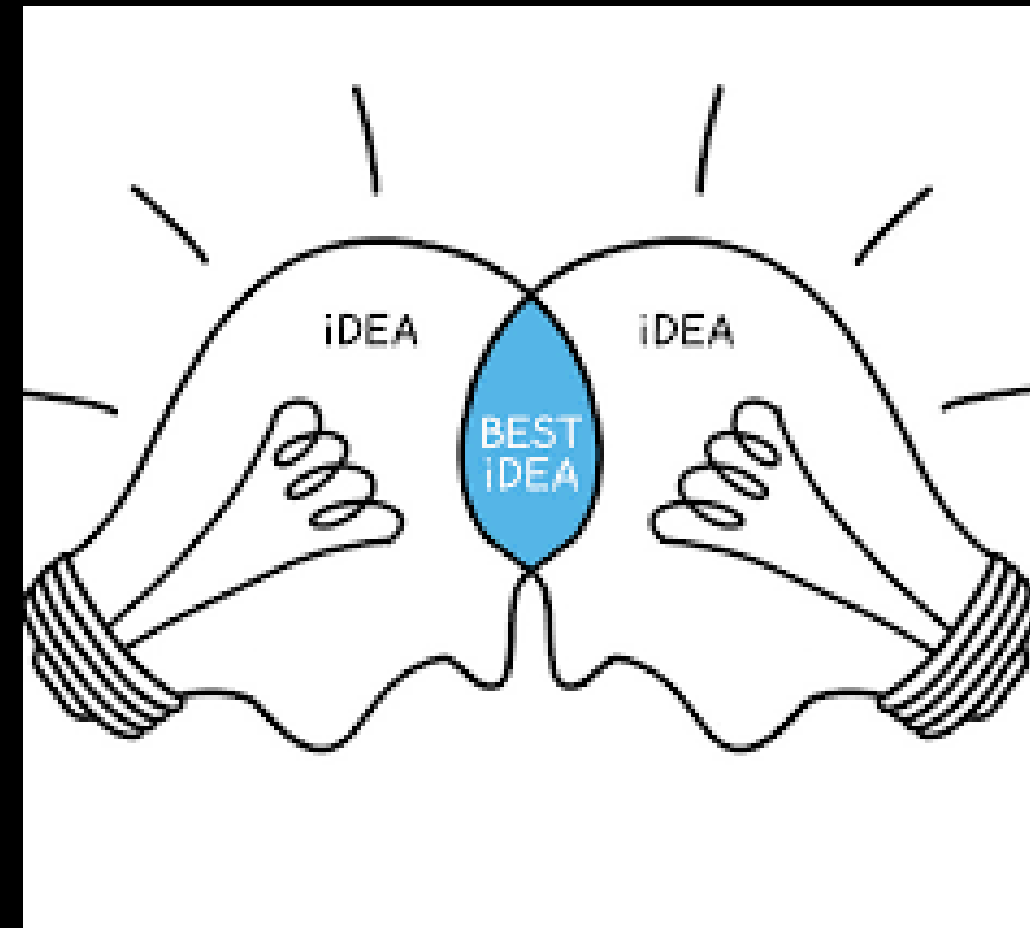

# DATA UNDERSTANDING

- **REQUIREMENT ANALYSIS**

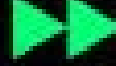

# DATA QUALITY ISSUE

- **COLLABORATION**

# POOR VENDOR PERFORMANCE

- COMMUNICATION  
& CULTURAL INTELLIGENCE

WHAT IS   
**CULTURAL**  
INTELLIGENCE?

# BUILDING MODEL BEFORE UNDERSTANDING REAL ISSUES

- EMPATHY & CUSTOMER FOCUS

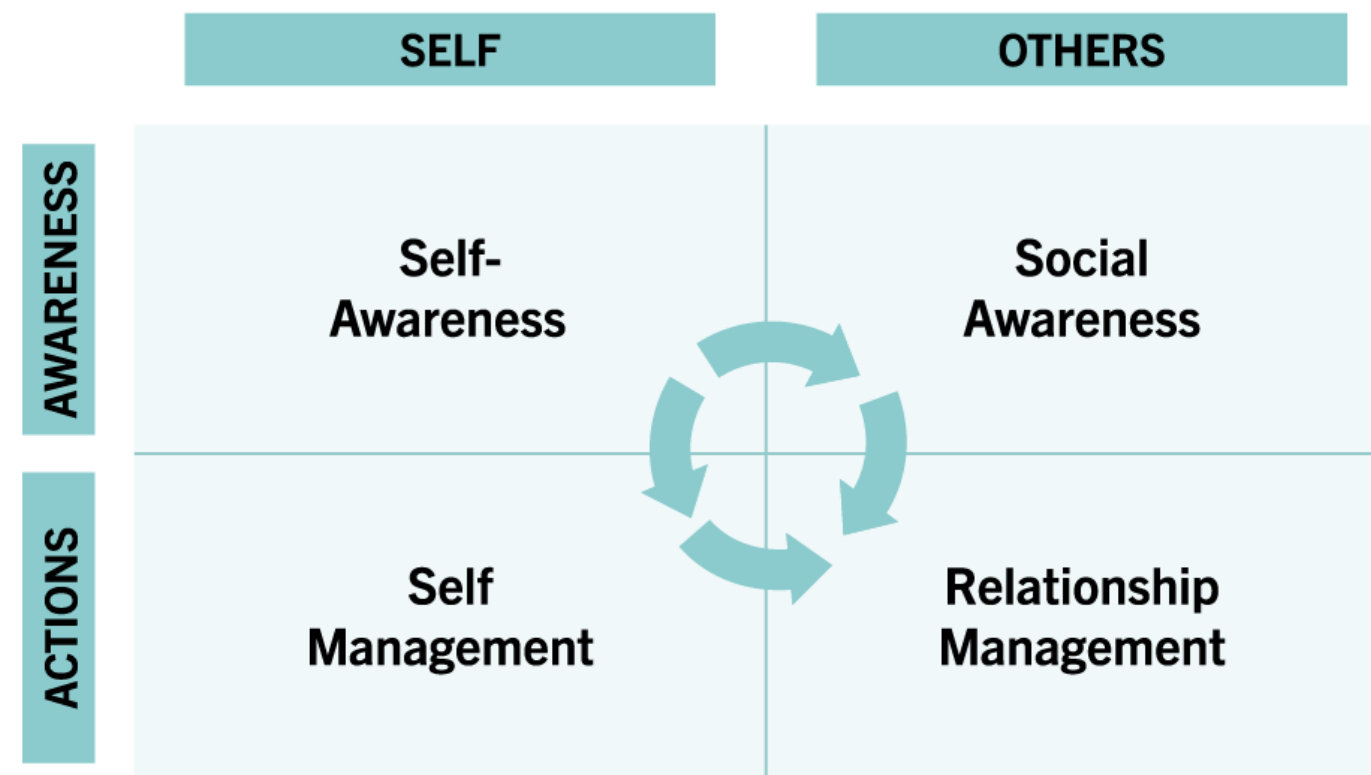

# OVER PROMISING AND UNDER DELIVERING

- ACCOUNTABILITY & CLEAR COMMUNICATION
