Today we are exploring

NotebookLM by Google

3 States of Using AI

Underuse AI:

Not fully using AI technologies

High risk of falling behind; less competitive

Over-rely on AI:

Using AI to "do less work"

Less motivation, thinking skills degrade

Decision -27%
motivation -68%

Human-AI Synergy:

Become more strategic & innovative with AI

Work quality and productivity increase

The background is a blurred office scene. On the left, a person is seated at a desk, looking at a computer monitor displaying a 'Business Analysis' dashboard with a world map and various charts. In the center, another person is seated at a desk with a large monitor showing Python code. On the right, a person is standing, holding a white marker and a black object, possibly a microphone or a bag. The overall atmosphere is professional and tech-oriented.

DON'T FALL INTO THE TRAP
OF OVER-RELYING ON AI

 NotebookLM

Think **Smarter**, Not Harder

Try NotebookLM

Understand anything

Your research and thinking partner, grounded in the information that you trust, built with the latest Gemini models.

Detailed Timeline of AI Development and Adoption in Malaysia

This timeline details key events and initiatives related to Artificial Intelligence (AI) in Malaysia, as well as global insights into generative AI's impact, drawing from the provided sources.

Pre-2012:

- **1956:** Artificial intelligence is founded as an academic discipline.
- **1950s-1990s:** AI experiences periods of "ups and downs," with advancements in neural networks and deep learning emerging in the 1990s.

2003:

- **Genaxis Established:** Genaxis, an AI and Big Data Analytics consulting firm, is established in Malaysia, focusing on business transformation.

2012:

- **Appier Founded:** Appier, an AI platform provider for enterprises, is founded, expanding its presence across Asia.
- **Microsoft Commissioned IDC Study (Global Context):** Microsoft commissions an International Data Corporation (IDC) study involving 100 business leaders and 100 workers in Malaysia to understand AI adoption, capabilities, and barriers.

2014:

• **Ataccama Digital Established:** Ataccama Digital, an AI company specializing in smart mobility and IoT, is established in Malaysia.
